SOVIET EXPLOITATION OF BULGARIAN URANIUM AND COPPER MINES;  
LIST OF BULGARIAN COAL AND ORE MINES

USSR EXPLOITS BULGARIAN URANIUM COPPER MINES -- Paris, La Bulgarie Libre  
 [anti-Communist], 1 Jul 52

The uranium mines of Stara Zagora, Bukhovo, and Murgach are the exclusive property of the USSR. They are controlled by several detachments of political police from Moscow. The ore is sent in lead cars to Stalin on the Black Sea. From there, Soviet ships take it to Odessa, from where it is shipped directly to atomic installations in Siberia.

The same thing is true of the copper mines near Samokov, which had been untouched until 1951. The following Soviet engineers and specialists are directing the operation of the mines: Liniov, Obraitsov, Kazlovski, Soldatenko, and Kiselev.
